

Dear Hiring Manager,

I hope this letter finds you well. I am writing to express my strong interest in securing an on-campus employment opportunity within New Jersey Institute of Technology. As a dedicated and experienced professional currently pursuing a Master's degree in Computer Science at the New Jersey Institute of Technology (NJIT), I believe I possess the skills and commitment necessary to contribute effectively to your team while offsetting my living expenses.

I have a strong academic foundation and my coursework has equipped me with a solid understanding of computer science principles, programming languages, and software development methodologies.

Prior to my pursuit of higher education, I gained valuable industry experience as a Frontend Developer at Tata Consultancy Services (TCS). Over the course of nearly three years at TCS, I honed my technical skills, gained hands-on experience in web development, and collaborated with cross-functional teams to deliver high-quality projects for prestigious clients in the US. This experience has sharpened my problem-solving abilities and enhanced my adaptability in fast-paced environments.

I am actively seeking on-campus employment to alleviate the financial challenges that come with being an international student. With my background in Computer Science and my previous work experience, I am confident in my ability to contribute effectively. I am eager to apply my skills, assist in project development, and collaborate with fellow students and faculty members to achieve common goals. Moreover, I am highly motivated, a quick learner, and committed to maintain strong work ethics.

Thank you for your time and consideration. I have attached my resume for your review. I would welcome the opportunity to discuss how my skills and qualifications align with the needs of the organisation. Please feel free to contact me at your convenience via email at jst44@njit.edu. I am excited about the prospect of contributing to NJIT and eager to explore how I can make a positive impact within your department.

Sincerely,

Janhavi Tatkare
